

“ 30 views of plastic “ – Nadja Garacic

The work was inspired by Hokusai „ 30 views of Fiji „ . A threat that comes from plastic garbage is shown through the waves . People should pay more attention on the ocean and seas or any other water source . The threat that comes from plastic is huge . People thinks that the throwing a plastic bottle in the water wont cause anything but they dont know that the same bottle needs a 100 years to disappear.

That can destroy lives of sea animals and plants . Global warming is a huge threat to our planet . Be careful to oceans the may get revenge .
